# BELL HIGH SCHOOL

## OTTAWA ONTARIO

1970

1971

Bell High School was founded in 1962, and was administered by the Collegiate Institute Board of Ottawa, until transferred to the newly-formed Carleton Board of Education in January, 1970.

Our first principal was Mr. McGillivray, who is now Superintendent of Academic Personnel for the Carleton Board. In September 1965, Mr. Gardner took over the duties of principal and Mr. McGillivray went to the University of Alberta, to take his master's degree in Education. In 1966, Mr. Gardner became principal of Woodroffe High School, and Mr. McGillivray returned to Bell. Mr. Fox took over the administration for three months in the late spring of 1969, when Mr. McGillivray left to take up his position with the Board. Mr. Fox went to the Department of Education as Programme Consultant for Mathematics, and Bell was pleased to welcome Mr. MacLean, who came to us from Confederation High School, where he had been vice-principal. Also new to the administrative staff was Mr. Robillard, who had previously been head of the Physical Education Department at Rideau High School.

Over the years, Bell has increased its numbers from 630 to 1100 students. Some of the achievements of Bell students in both academic and athletic fields in 1970 and 1971 are recorded in this Yearbook.

# THE PRINCIPAL'S MESSAGE

The arrival of the school yearbook is a sure sign that another year has come to a close. This has been a difficult year for our nation and for the world, and I know that crises have arisen in the lives of many of our students which will cause them to say, "I shall never be the same again." It is always so; there never was a year which was not difficult for some and critical for others. The only important fact is how well the nation or the individual responds to the difficulty or the crisis. I hope that it will always be with dignity and courage, and I see much evidence among the young people that I meet to sustain me in that hope.

Education is, as usual, in a state of crisis. There is much disagreement about what should be taught, how it should be taught, and to whom. Traditionalism is challenged by relevance, authoritarianism does battle with freedom, excellence has to contend with mediocrity, but none of these struggles is new. The school is, as it always has been, in the middle, trying to make tradition relevant, trying to counter-balance freedom with responsibility and trying to get just a little more excellence than mediocrity is willing to yield. It will not always succeed, and the net effect of its efforts will not always be visible, but it will keep trying to have an influence on the lives of those whom it encounters.

In many ways, it has been a good year, and many Bell students have brought credit and a good name to the school. I hope that all have found something here which will be of use to them in the future, and I congratulate the editor and all who helped him for providing this chronicle of 1970-'71.

*F. W. Mackean*

# THE VICE-PRINCIPAL'S MESSAGE

After two years at Bell, I am very pleased with the co-operation received from the staff and students.

My position is a very challenging and demanding one, but very definitely the most interesting and rewarding task that I have ever attempted.

In my fifteen years of High School teaching and administration, I must rank this year's student council as the most outstanding one that I have seen; they have been hard-working and very dedicated. Their outstanding characteristic has been the mature manner in which they have investigated all demands placed upon them by school groups, and have taken a sensible path towards their solution - Congratulations!

The head boy, Bill Douglas, and the head girl, Peggy Peebles, have been very active, and have placed

the welfare of Bell above everything else.

At this time, I would also like to praise the majority of the students in our school, who work constructively to improve themselves, and to make Bell a better place to attend.

The job of Vice-Principal, owing to its demands, does not involve dealing with the above-average, or average student, but rather with the below-average person. My work is with the student who is truant, not working, or hostile to people. Perhaps, once in a while, I get the opportunity to help the ninety-nine per cent of the students who are interested in school.

A special mention goes to all those who have taken part in the activities outside the classroom, where they have represented Bell in drama, music, academic competitions and athletics.

The best of luck in your work and play, and I hope that next year we can make things even better at Bell for everyone.

*E. Holillard.*

## THE HEAD BOY AND GIRL

It was fun, but we wouldn't want to do it again. This year has been a very interesting one for us, and has been a great challenge. Thanks to a hard-working and active council, we achieved all kinds of new things this year. In 1970, Women's Liberation came to Bell in the form of pants for girls. At the time of writing, we are in the midst of revising the constitution and solving the students' lounge question. A newsletter was introduced, informing the students about council activities. Our pen drive was a moderate success, but we suggest next year's council try a new plan. And, as usual, spirit week was fantastic.

We have many people to thank. Helping us equally, were the ever co-operative Messrs. Maclean and Robillard, the unprecedentedly-active Miss Waldorf and Mr. Poutanen and the extremely efficient Gayle Annis, who acted as our secretary. Thanks also to Nancy Flood and Debbie Marcellus, who contributed to the Clarion, to Dave Laronde and Jill Patterson, who represented Bell at C.O.R. meetings, to our wonderful executive, consisting of Colin White, Debbie Smith and Doris Fizzer, and once again to our Council Members. In conclusion, we wish piles of luck to next year's head girl and boy.

Luv,  
Peg & Bill.

**GAIL BEGGS**

"Dum-Dum", as Gail dislikes being called, is from Winnipeg. While here, she has participated in the yearbook and booster clubs, curling team, grad dance committee, school play "Girls are Best", and St. Bridges School. She likes autumn, thunderstorms, Montreal, hockey, dogs, music, movies, people and Friday 13th's; and dislikes pollution, prejudice and conceit. Gail passes her time swimming, reading, having fun, and admiring Henri, Arbee and B.A.F. In the future she plans to attend university, live commonlaw, and travel. "Right Chief?"

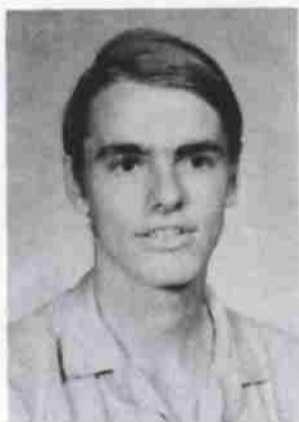

**DONNA BUTLER**

Donna arrived at Bell from C.D.C.I. East in Cobourg, Ontario and prior to that, Yorktown High School in Arlington, Virginia. In order to become a nurse in the future, she spends most of her time struggling with chemistry. She likes week-ends, football and her Chicago album, and dislikes the mad rush for a place on the 4:00 P.M. bus. We often hear her say, "Tomorrow I'm quitting school," but she would miss sitting in the lounge, and talking to Karen and Marilyn in History.

**JEREMY DAVIS**

"He who laughs last has one of the slowest senses of humour I've ever seen." Jeremy, alias "Joe Willy Zuger," a non-member of the apathy club, will always remember losing his gym shorts while greasing the climbing ropes in the gym. He plans to attack Luxembourg without getting caught and become gunrunner for the anti-war league. South March Sewing School hardly prepared him for this. Jeremy likes clear (cough!) beautiful (cough!) days, an instrument of torture formerly owned by Mr. Peyton, and watching grass grow. He dislikes people who send forget-me-nots to amnesiacs.

**GREG FORBES**

"Claude" is a hockey, football and intramural sports enthusiast. Having come to Bell for 5 years, he will be glad to get out and travel for a year, and maybe "major in Chemistry at university. He likes hockey, girls and D--K--G. He treasures his skates (tacks) and his mother's V.W. Greg remembers the excitement of getting kicked off the hockey team for smoking. He liked the lounge and his favourite saying is "Get Serious."

**PETER GRIBBLE**

"To go beyond knowledge, to wisdom, is the object of learning." Peter, known as the quickest finger in the west has spent 5 years at Bell and finally has the whole afternoon off. He is actively involved in palm-reading, astrology, and the Yoga Club and spends his leisure time doing pottery. On his agenda for future are attendance at Sheridan College; and an eventual Art teaching position at Bell. "Hare Krishna" maybe, eh, Peter?

**BRYAN KEEFER**

"Bri-Bri" plans to attend Europe next year and become a ski-bum and prime minister of Austria. His only like is skiing and his dislikes are: summer, spring, fall, Math, English, History, Chemistry, Biology, and yearbook write-ups. Passing grade 12 was exciting for Bryan and his favourite pastime is interrupted only when he feels like saying, "What can you do!"

**MIKE LADD**

Mike is one of the quieter members of Bell's society. While here he has participated in track and cross-country. He likes skiing, skipping school and his Irish setter Windigo. He plans on going overseas with Bryan and being the Minister of Foreign Affairs in Austria. Mike doesn't like being called "Windigo" but he doesn't realize that when people walk by and say, "Hi, Windigo", they're ignoring him and addressing his dog. Just remember, he's man's best friend.

**KATHY MCMULLEN**

Kathy has attended classes at Bell for 5 years straight and plans to study at Carleton next year and eventually contribute something to the field of sociology. She has discovered that she likes getting right answers in Mr. Bell's class and dislikes getting wrong answers in Mr. Banks' class. In other words, she likes getting right answers. Like a true Canadian, she likes skiing; especially when her little orange mouse perches on the tips of her skis.

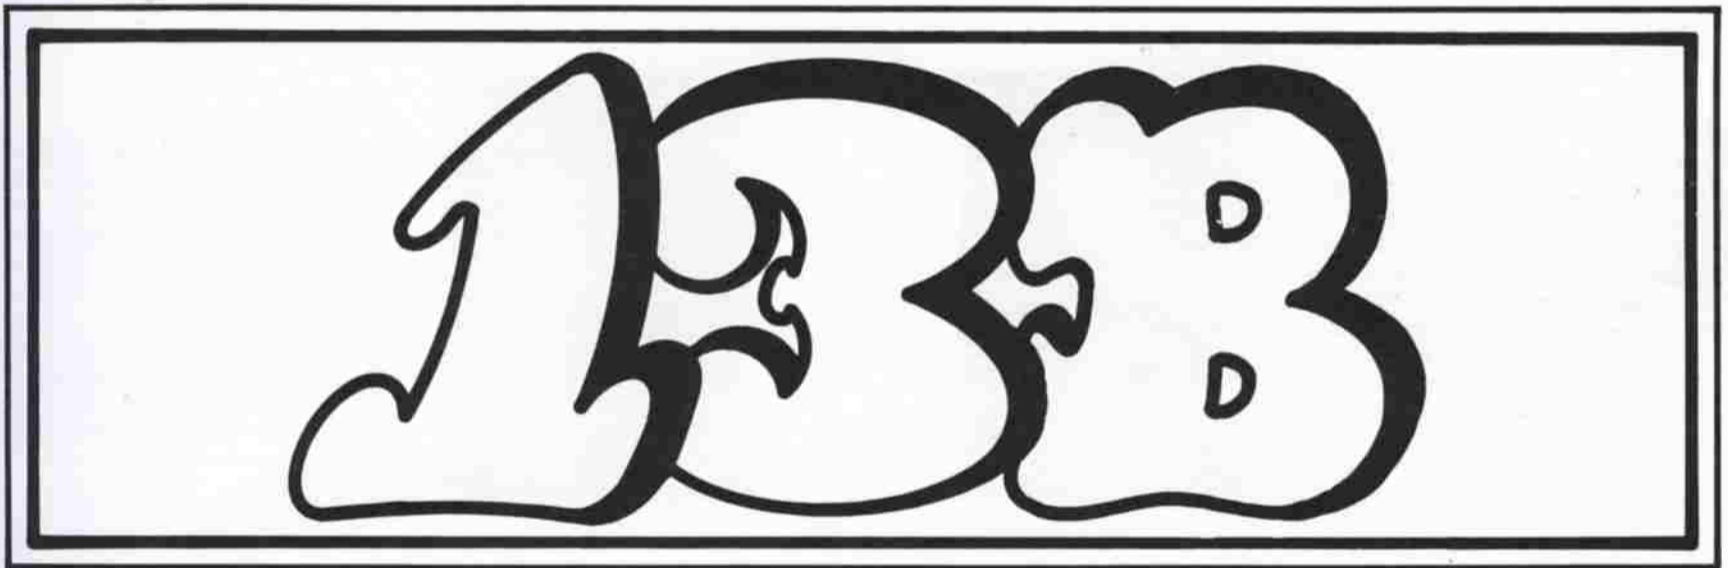

**JOHN PORTWOOD**

Jon is from Calgary, and we guess Westerners like cheap movies, because he spends his week-ends at Carleton watching them. He is easily recognized by his grandpa's shirts and his doggy boots. Once in a while, an orange sock shows too. He likes funny things and his sweet peach. Next year, Jon hopes to travel. "Ah shucks, isn't that cute?"

**DON TURNER**

"Dung" can't wait to leave Bell and get out in the world to make a million, but if he's retiring at 25, it doesn't give him much time. He likes week-ends, Montreal Alouettes, and being the Bridge Star while he dislikes week-days. He will never forget beating Brousseau in poker for 6.

**CARALYN BOWES**

Caralyn, alias Ronnie Stewart, is the shortest team member of the basketball team. Her other activities include volleyball, gymnastics, track and field, badminton, the Senior band and the G.A.A. She hopes to attend Queen's or Waterloo for Phys. Ed. and then to be an exchange teacher overseas, preferably where the skiing is good. Caralyn spent 2 years at Widdifield Secondary School in North Bay before coming to Bell, where the most exciting thing that happened to her was receiving the Hi-Y Trophy in Grade 11.

**JANE CASTELLANO**

Jane has attended not only two other schools in Ottawa but schools in Winnipeg, Boston and Marville France. To pass the time Jane draws, swims, and skis. Her greatest dislike is POLLUTION. Since being at Bell, the most exciting thing that has happened is dropping Math B. Provided Jane fulfills her ambition and gets through 13 she hopes to take Recreology at Waterloo.

**ERIC FERGUSON**

Being at Bell for five years, Eric has acquired the alias "Ferg" and has been an active member in the band. Eric hopes to attend Carleton for honours B.A. and become a lawyer. He hopes to see the Canadian Grand Prix. The most exciting thing that has happened to Eric at Bell was being taught by Mr. Murawsky and Mr. Peyton. Apart from watching the Chicago Blackhawks, Eric likes to read Mad Magazines. Lookout for the "Sioux Lookout" jacket.

**IAN GREIG**

Music holds Ian's interest, both playing and teaching. Doing nothing in classes and getting up early for class tend to make life dull, but this is made up for by photography, skiing and composing music. Ian hopes to take along his "astrological key chain" with him as he takes Sociology at Ottawa U. His ambition is to fulfill his interests in the "natural world."

**DAVE HARDWICK**

Dave has spent 5 long years at Bell. He hopes to get out this year and be successful at something, possibly engineering. Being a typical male, Dave likes girls, football and hockey (Montreal Canadiens). Toronto is not Dave's favourite team in either football or hockey. The things that mean the most to Dave are in this order, his Lee jeans, his peace ring, and his life.

**PIERRE LACHAINE**

He has already been to Academie St. Laurent, Hawkesbury District High, Sir Wilfred Laurier H.S. and as Pete says, "You name it, I've been there." **BRUCE MCPHERSON**

Bruce, commonly known as "Fergie", has led Bell through a successful year of hockey, football and cross-country. Listening to music, attending wild parties, sleeping, and wearing his favourite hat are what Bruce has enjoyed here at Bell and at Dunton High in Montreal. Except for passing grade 11 Physics high school has been pretty unexciting. Let's hope university proves more entertaining, as we are sure it will.

**CHRIS MACRAE**

Chris' nickname is "Emil", but she doesn't know why. Her activity at Bell was being a student, and her ambition is to get through grade 13 the first time around. She likes everything except rain, naturally curly hair and people who bug her. Chris hopes to teach. Her favourite pastime is having a good time. The most exciting thing that happened to her at Bell was learning to like it and then passing grade 12. She says her favourite saying is "You guys are just fooling eh?"

**DAVE PATTERSON**

Dave, "Floyd", has participated in basketball. However, pressing engagements have not allowed Dave to join the basketball team this year and have also limited his reporting for the B.F.A. His plans include engineering at Waterloo and succeeding (In what? ). Dave dislikes anything he doesn't like, which is girls and motorbikes. Wiping his Yammy out in front of 400 people is what Dave considers the most embarrassing thing that has happened to him. Dave's words of wisdom to us are, "Don't look at the mantel, when poking the fire." Right Dave!

**SUE MICKUS**

**MARGARET WILLS**

Margaret, a very studious student, says her only activities at Bell are attending classes regularly. However, attending all these classes hasn't helped her to make plans for the future. He dislikes grade 12 English. "Thus conscience doth make cowards of us all" is Randy's quote from Hamlet.

Jayne's slogan is, "Don't expect too much from life and you won't be disappointed." It must work for Jayne, because she often wears her happy button to match her sweet smile. You'll always find her on the ski slopes, whether they're covered with sand or snow.

He plans to leave here and go back to K.L. He likes Jo-Jo and her letters and his lost Ludwig drums, but isn't too fond of Gord's and Keith's Kawasaki. His spare time is spent going to K.L. and breathing. "If you're leaving a bar, don't order that last drink for the road . . . because the road is already laid out."

**PEG PEEBLES**

Sunshine has spent her 5 years at "good old Bell." Peg plans to go to university, travel and get married. Peg likes selling french-fries at the arena, driving the "Olds" and especially being Head Girl. She dislikes guys who don't dance at dances, people who are apathetic and don't get involved in school. She dislikes anything that contributes to messing up the world. If you see Terri's green jelly-bean in Australia or Africa, let us know that she finally got there.

**JO-ANNE PORTER**
